DETAILED ACTION

This Office Action is responsive to the amendment filed August 26, 2005.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 48 is rejected under 35 U.S.C. 102(b) as being anticipated by Popek et al. (5,351,989).

Popek et al. discloses an apparatus comprising: a container (12) storing inflation fluid under pressure; a rupturable closure member (52) blocking flow of inflation fluid through the passage, the closure member having an outer periphery secured to a first support member (86; see Figure 2); a second support member (64) centrally located relative to said rupturable closure member and defining a chamber into which a central portion of the rupturable closure member is deformed by the pressure of the inflation fluid (see column 7, last line - column 8, first line); and an initiator (48) that ruptures the closure member, the initiator being located in the chamber (see Figure 2).

Allowable Subject Matter

3. Claims 1, 3-10, 12-17, and 23-44 are allowed.

Art Unit: 3616

4. Claim 49 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claim 48 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
